

L'Opéra du Villageois

Zora Snake

Cameroon | Dance/Performance

With this performance, Zora Snake develops his research on his country's traditions, the “aesthetics of the invisible world” and the legacy of his elders. L'Opéra du Villageois is presented as a performative and political essay, a ritual around gold and salt, resources that were plundered by the colonisers. It is a tribute paid to the inhabitants of villages that were long considered as “uncivilised”, and is meant to awaken their strength and resistance.
